Microsoft 365

Copilot Studio

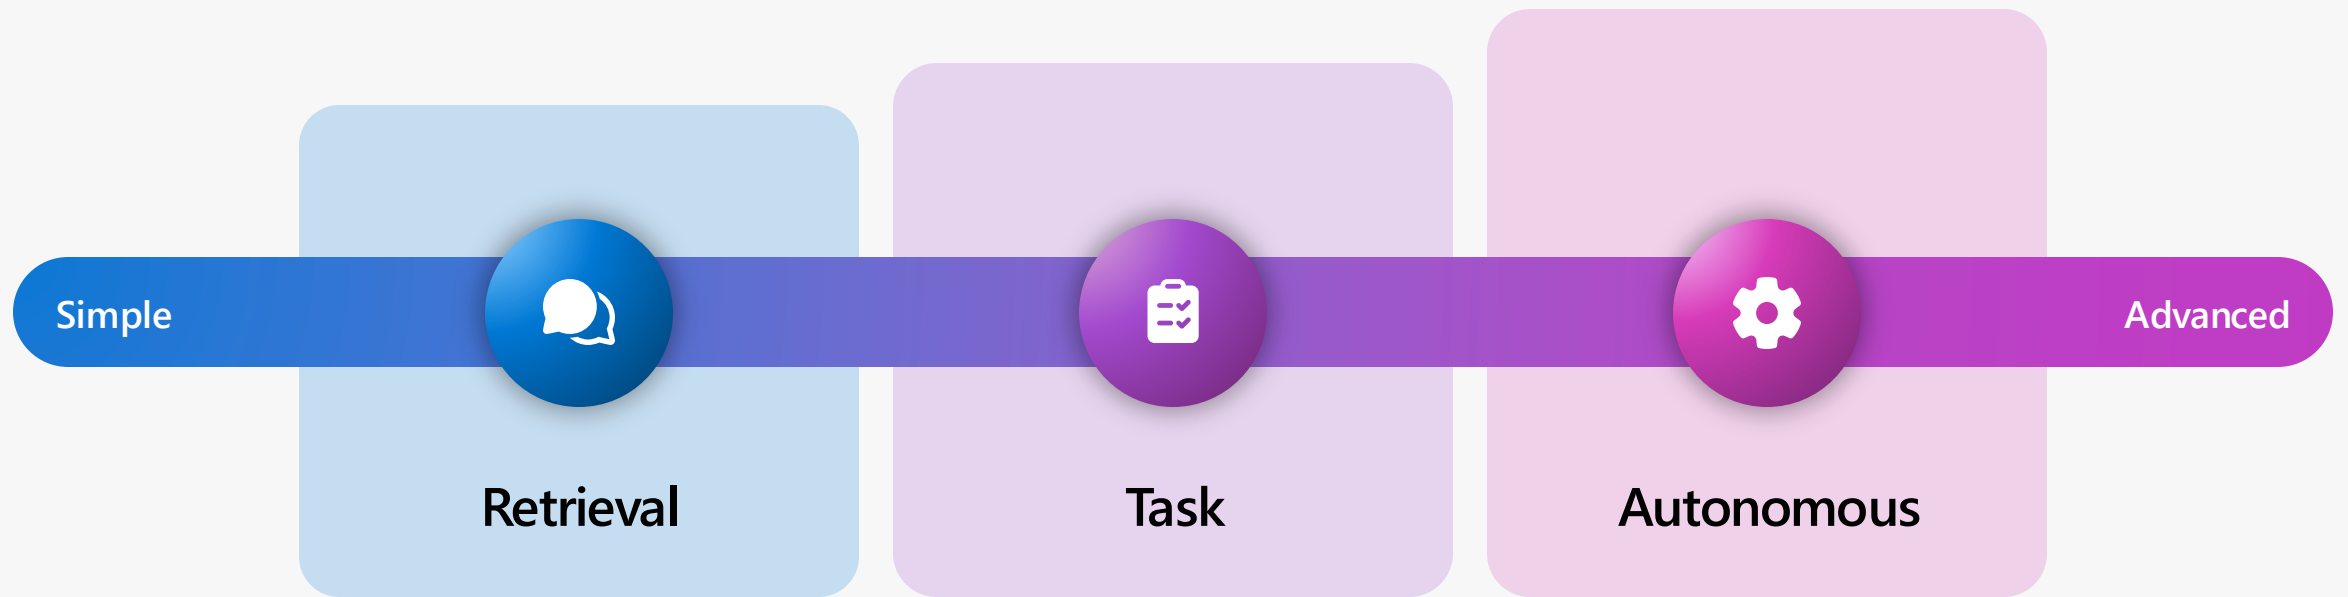

Microsoft

What are agents?

Agents use AI to automate and execute business processes, working alongside or on behalf of a person, team or organization

← Agents vary complexity and capabilities depending on your need →

Explore a continuum of solutions

IT Helpdesk agent

How do I connect to the corporate network?

Device Refresh agent

Request a new laptop and send approvals via IT Service tool.

Lead Gen agent

The agent has identified and researched 15 new leads for you to review.

Simple

Advanced

Project Tracker agent

What is the status of phase 2 for project X and the remaining budget?

Budget Management agent

Review outstanding open PO's and begin financial planning.

Customer Support agent

The agent has identified new support issues and triaged to other agents.

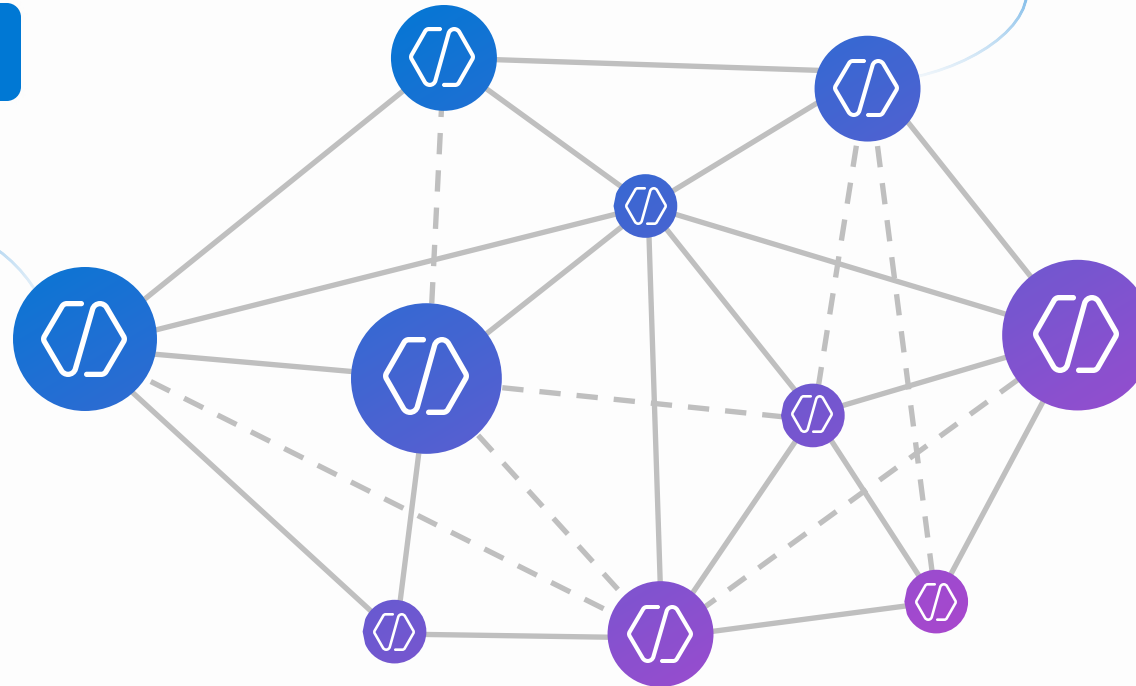

Connect agents to each other, regardless of where they're built

Build with Copilot Studio

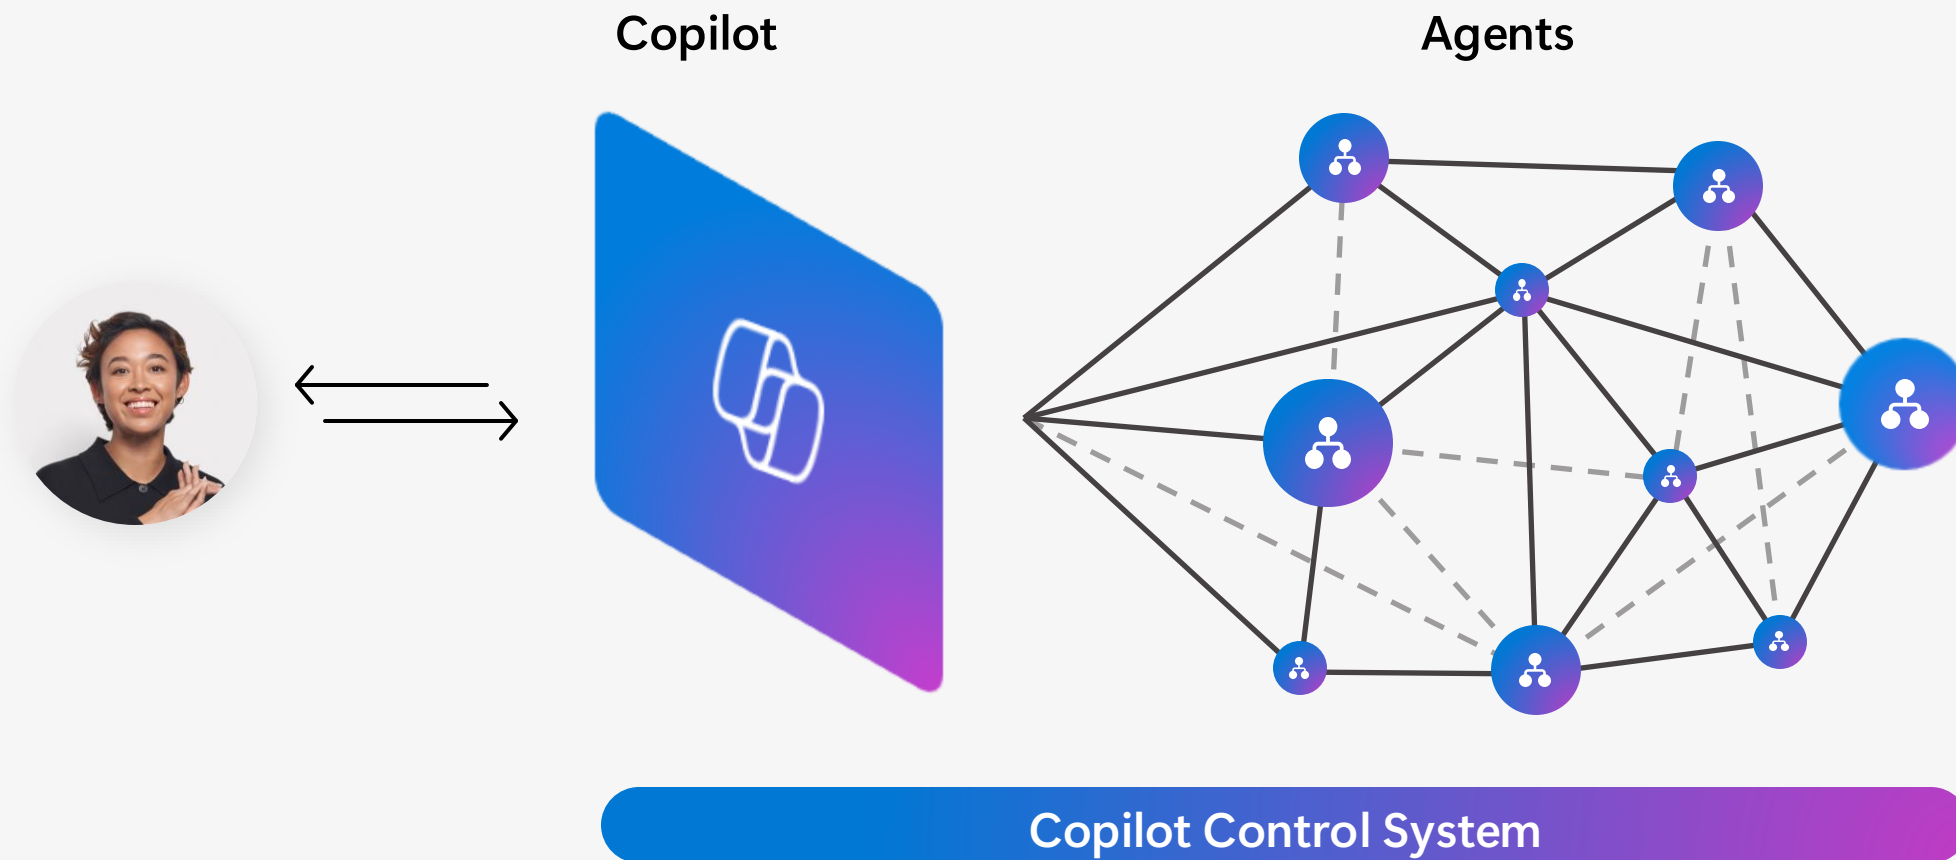

Agents

Connect agents from AI services like:

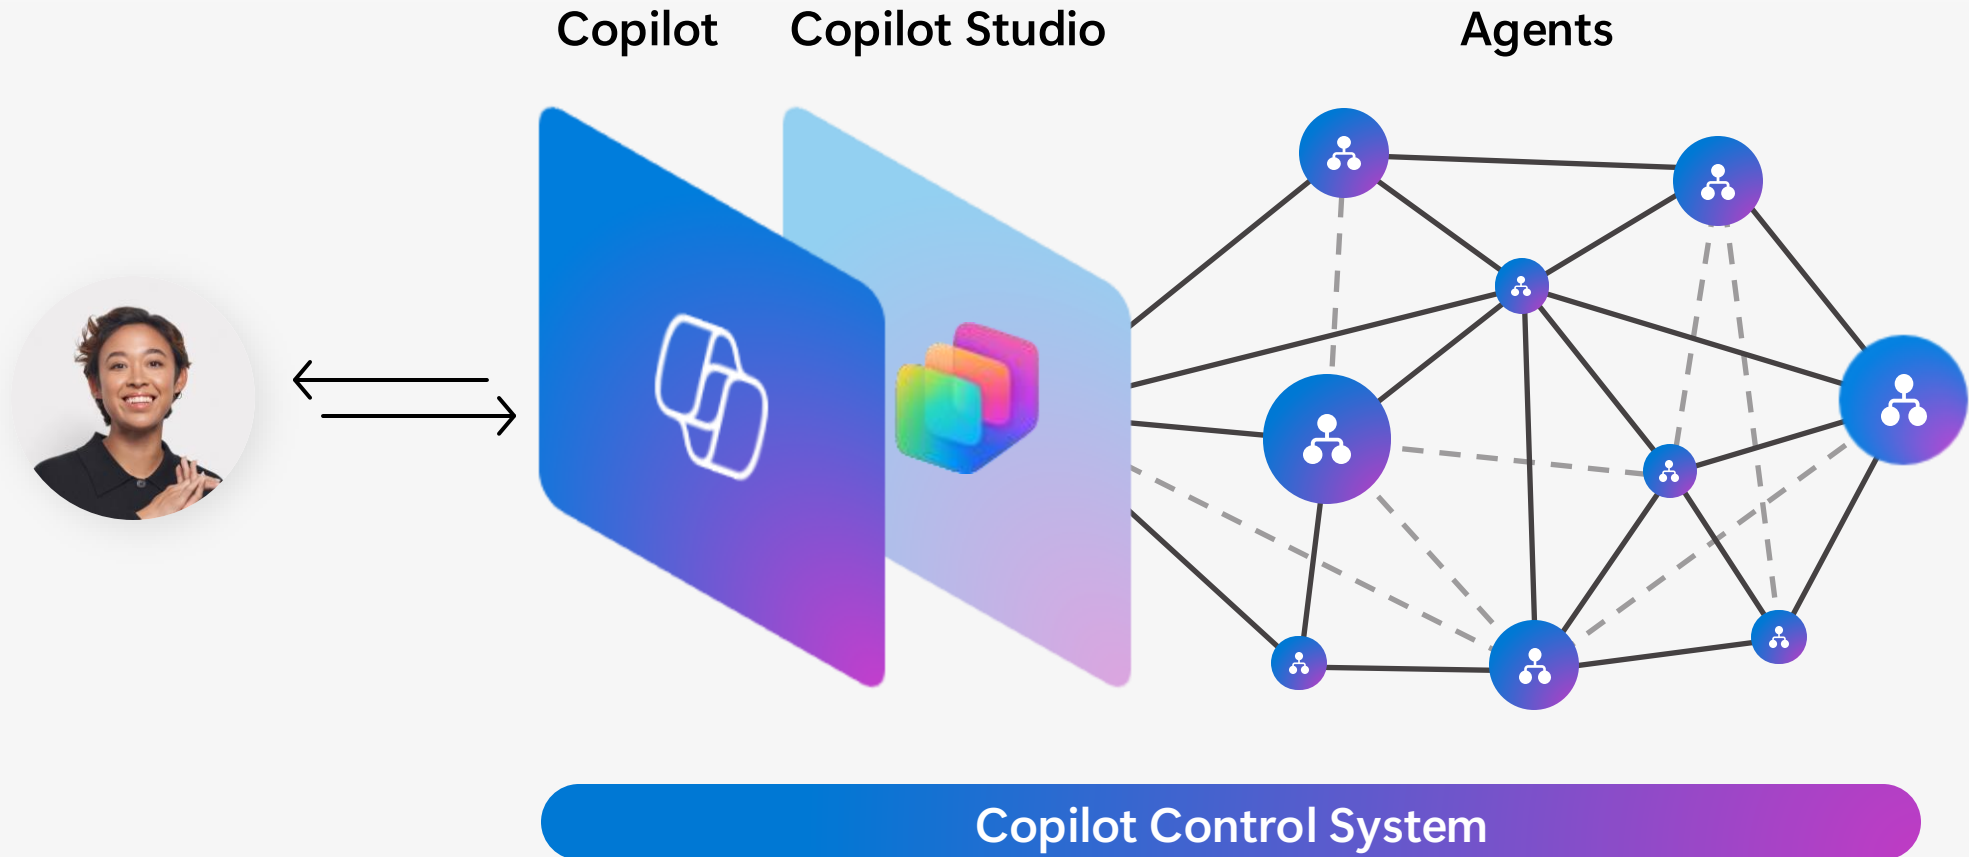

- Azure AI Foundry
- Semantic Kernel
- Amazon Web Services
- Google Cloud Platform
- IBM Cloud
- OpenAI
- LangChain
- Other...

Copilot is the UI for AI

Copilot Studio is the platform for AI agents

Copilot Studio

1

**Built on Microsoft.
Connected to
Everything.**

Achieve goals faster by enabling agents with your company's data and third-party systems.

2

**Build any agent.
From simple to
sophisticated.**

Reduce development time and costs on custom agents by selecting from your choice of models, knowledge, tools, and channels.

3

**Govern every agent.
Secure every action.**

Innovate at scale by managing data access, agent sprawl, compliance and risk.
